

Your Library in Their Pocket

Give users the 21st century experience they expect — offer one-click 24/7 access to your library's assets with a mobile app!

How Your Library Benefits

- ☐ Mobile access increases use and circulation of digital and physical collections.
- ☐ In-app search, sign-up and reminders boost attendance at library events and programs.
- ☐ ADA Section 508 compliance allows more people to easily access your library.
- ☐ Powerful back-end analytics allow you to track app usage and run reports.

How Your Patrons Benefit

- ☐ Get real-time, mobile access to easily search and browse the library's catalog, events, e-resources, and more.
- ☐ Manage one account or accounts for the whole family — all from the same device.
- ☐ Stay connected and informed on the latest news and happenings within the library community.

Your library-branded app provides one-click access to everything your patrons need

Family Card Management

All of the family's cards and accounts in one place

Patron Account

At-a-glance view of everything account related

The Catalog

New ways to explore and discover the library's collections

Bar Code Scanner

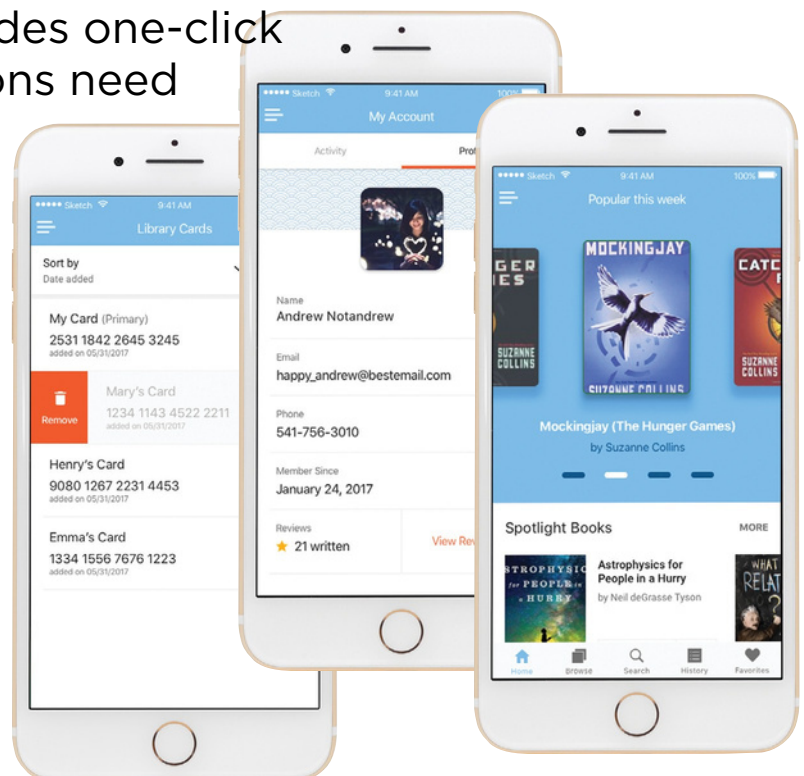

A simple way to see if the library has an item in its collections

Events

Easy access to details about library events

Locations and Hours

A quick, convenient way to get information on the nearest branch location

Simplify Mediated Room Management

Put common spaces and meeting rooms to work for your community without increasing librarian workload.

How Your Library & Community Benefit

- ❑ Staff-side view shows all room reservations in a clean, simple monthly calendar format.
- ❑ Easily charge fees and deposits, based on group type.
- ❑ Control who can manage and edit room reservations with customized staff permission levels.
- ❑ Generate detailed reports on room usage and user histories.
- ❑ Activate e-commerce functionality to offer patrons the convenience of paying for their reservations online.

Spaces integrates seamlessly with Demco Software's event management solution, SignUp, to eliminate double room-booking and enhance your ability to track and report on attendance and usage.

Increase Patron Access Works Seamlessly With Your Website and ILS

An intuitive interface allows patrons to filter rooms based on preferred days and times, and searches are easily modified.

Patrons can monitor pending room and equipment requests and view their booking histories.

Patrons are automatically notified about room request status, and reminders and confirmations can be sent via email or text.

XML feeds provide the library with digital signage integration.

Spaces authenticates with most ILS systems and LDAP.

Library-branded website banners are easy to add.

Setup and Support

Using library-provided photos and room descriptions, you can build a customized Spaces site.

Live webinars and concise online training videos will also be provided at no additional cost.

Give Their Brain Power a Boost

Improve Your Community's Cognitive Health
with Online Brain Training

Why BrainHQ™?

- ❑ Culminates from the work of an international team of neuroscientists and the findings of more than 100 published scientific papers
- ❑ Offers a mobile-friendly platform, for brain training on computers, tablets, or smartphones
- ❑ Enhances library programming by integrating brain health with your collection and current programming
- ❑ Focuses on six core areas of cognitive function: attention, brain speed, memory, people skills, intelligence, and navigation
- ❑ Offers 32 brain training exercises and 890+ unique levels backed by science
- ❑ Adapts in difficulty for optimal personalized training

How It Works

Cardholders access BrainHQ through your library's website.

Patrons create their private patron accounts with personalized performance dashboards.

Data usage reports show how you are impacting your community.

In the News

See what *Forbes* says about BrainHQ and how it helps people sharpen their cognitive abilities.
